Example questionnaire created with LATEX

Welcome to this very important survey with which we researchers want to look deep inside of you (be afraid!). Anyway, thank you for filling it all out.

Please note that no tabular environment is used in this example questionnaire. Of course, you could use tabular to create more complex layout.

Abo	ut you									
1.	Your name: _									
2.	How old are you? I am years old.									
3.	Are you in a good mood right now? □ absolutely □ not really because:									
4.	4. Do you like having an option?									
	 □ Yes, this meets my need for autonomy. □ No, I'd rather have someone else decide for me. 									
	□ Not sure.									
5.	5. What kind of music do you like best? □ Johann Sebastian Bach									
	□ Jazz									
	☐ The Beatles									
	□ Other:									
Please	e evaluate the f	following composers								
6a.	$\mathbf{Mozart} \qquad \qquad \text{horrible} \ \Box - \Box - \Box - \Box \text{ fantastic}$									
6b.	Beethoven horrible \square — \square — \square —fantastic									
6c.	Johann S. Bach horrible $\square \square \square$ fantastic									
6d.	John Lennon Uh, well, I do not like □—□—□—□—□—□ Oh, yes, you know, his music very much really great stuff									
6e.	Elvis Uh, well, I do not like ————————————————————————————————————									
Abo	out this que	estionnaire								
7.	Do you like th	he style so far? □ Yes □ No								
8.	Is it really wo	orth the ink? Guess so. Probably not.		□ Don't know.						
9.	How does this	s item look different from the previous one?		Oh. Does it?						
				No clue. I just can't figure it out. So sorry.						
				I guess what you mean is that here the different answer options are below each other.						
10a.	a. Please describe your first impression.									
10b.	In case you w	ould like some more lines to write, here they	are	:						
		· · · · · · · · · · · · · · · · · · ·								

Another feature

Now, here is another nice feature: you can automatically alter the background color of the items. Here is how it can look like. Because we are too lazy to think of new questions we will just ask you the same questions again. There is one difference to the above though, can you find it?

About you

11.	Your name: _								
12.	How old are you? I am years old.								
13.	Are you in a	good mood right	now? Oab	solutely	○ not rea	lly because:			
14.	Do you like having an option?								
	○ Yes, this meets my need for autonomy.								
	\bigcirc No, I'd rather have someone else decide for me.								
	○ Not sure.
